# The Scovill Mfg. Company

Waterbury, Conn. September 10, 90

Wm. H. Wood &amp; Co., Boston.

Hon. O. C. Bosbyshell, Supt.,

U. S. Mint, Philadelphia, Pa.

Dear Sir, -- On my return from the West this morning my attention has been called to your request of September 4th. It was an understood thing here when I left that if you should call for an increase of either one or both of the nickel and bronze blanks, the stock should immediately be put in the works and rushed thro to accomplish it. As I understand it you wish us to ship ten cases of nickel and 20 cases of bronze per week. I find that our people have sent rather more than this of the bronze. They prepared and did rush it through, realizing that you needed it, and have sent as many as five or six cases per day of the bronze. It is my intention, unless you wish us to make a still further increase to drop back to the amount asked for, 10 cases nickel and 20 cases bronze per week.

Yours truly,

Scovill Mfg. Co.
